

# GRAPPA DEL BARONE

WHITE

**Nerello Mascalese**

# GRAPPA DEL BARONE

---

WHITE

**Nerello Mascalese**

This grappa is produced using the pomace from selected vineyards that extend along the slopes of Mount Etna at an altitude of 700-800 meters above sea level.

The variety used, in accordance with the purest local tradition, is Nerello Mascalese.

Its rich aromatic structure derives from the elegance of these grapes, which ripen in a unique microclimate tempered by the elevation of the Etnean giant.

**Bottle capacity:** 50cl

**Alcohol content:** 45% Vol
